The College of Optometrists

Trustees' annual report

For the year ended 30 September 2025

The trustees present their report and the audited financial statements for the year ended 30 September 2025.

Reference and administrative information set out on page 1 forms part of this report. The financial statements comply with current statutory requirements, the charity's trust deed and the Statement of Recommended Practice – Accounting and Reporting by Charities: SORP applicable to charities preparing their accounts in accordance with FRS 102.

Objectives and activities

Purposes and aims

The objects of the College are set out in its Royal Charter, as follows:

- The improvement and conservation of human vision.
- The advancement for the public benefit of the study of, and research into, optometry, ophthalmic optics and related subjects and the publication of the results thereof.
- The promotion and improvement for the public benefit of the science and practice of optometry, ophthalmic optics and related subjects.
- The maintenance for the public benefit of the highest possible standards of professional competence and conduct on the part of the members of the College.

From October 2020 the College adopted a five-year Strategic Plan, setting out a series of strategic pillars, as follows:

- Strategic pillar one: Defining and inspiring excellence in optometry
- Strategic pillar two: Enabling optometrists to maximise their skills and develop their careers
- Strategic pillar three: Representing and amplifying the expert voices of optometrists
- Strategic pillar four: Embedding insight and evidence at the centre of the profession

Each Pillar is used to direct the College's operations, via a three-year business plan, and to produce departmental KPIs. The KPIs are reviewed monthly by the Senior Leadership Team and quarterly by trustees. Of the 75 KPIs (2024: 72) that the SLT set and monitored for the 2024 / 2025 business year, 71% have been achieved (2024: 74%), 23% (2024:15%) are progressing but did not achieve targets/milestones (but are not at a level for significant concern), 2% (2024: 3%) are significantly behind their targets or milestones and 5% (2024: 8%) have either not been initiated or are not yet measured, with some metrics not due until after this report is written.

The Senior Leadership Team and trustees believe these outcomes continue to represent a credible achievement given the ambitious nature of our business plan.

The Trustees have set a new five-year strategy (for 2025–2030) and an associated three-year annual business plan which will incorporate any outstanding or continuing activities and associated KPIs have been rolled forward into the new plan.

The College of Optometrists

Trustees' annual report

For the year ended 30 September 2025

The trustees review the aims, objectives and activities and associated KPIs of the charity each year. This report looks at what the charity has achieved and the outcomes of its work in the reporting period. The trustees report the success of each key activity and the benefits the charity has brought to those groups of people that it is set up to help. The review also helps the trustees ensure the charity's aims, objectives and activities remained focused on its stated purposes.

Trustees have referred to the guidance contained in the Charity Commission's general guidance on public benefit when reviewing the charity's aims and objectives and in planning its future activities. In particular, the trustees consider how planned activities will contribute to the aims and objectives that have been set.

Achievements and performance

The College works to a three-year Business Plan, covering the strategic pillars listed above. Progress is monitored by the Chief Executive and his senior team and reported regularly to the Board.

More details of achievements and activities are available on our website and in our separate Annual Report.

Financial review

The College had a deficit for the year of £5,945 (2024: Surplus £518,448). The 2025 result was a significant negative outturn compared to 2024. This was mainly due to a reduction in Membership income and a significant increase in the costs of delivering the Scheme for Registration (SfR). In particular the replacement of a virtual assessment with a face-to-face assessment increased costs but did improve trainee pass rates.

The cost budgets for the 2025–26 SfR costs have been reviewed and savings have been made where possible, however there will need to be an increase in Scheme for Registration fees to reflect the higher costs and the reducing numbers of trainees (increasing per capita costs) as the Clinical Learning in Practice programme replaces the SfR.

Membership income totalled £3.35 million for the year ended September 30, 2025 (2024: £3.14m), slightly under budget, contributing to the deficit.

Memberships are due for renewal on 1st October each year and the 2025 renewals are proving to be resilient.

The College continues to develop a strategic membership plan to support all members as well as having introduced Associate Memberships in 2024, to allow wider access to our CPD courses and enable improved oversight of non-Optometrist supervisors.

The College of Optometrists

Trustees' annual report

For the year ended 30 September 2025

The other Departments at the College returned positive variances compared to budget, although as they have small budgets compared to Education and Membership, the effect was immaterial on the overall deficit.

Investments generated a surplus of £308,960 (2024:£673,308). Last year's investment gain did benefit from a recovery from the losses in 2023.

Cash declined, ending the year at £937,192 (2024:£1,032,103), with investments totalling £5,352,949 (2024: £5,072,449). Investments can be converted into cash quickly if required.

When looking at Note 17a, analysis of group net assets between funds, it can be seen that general funds show net current liabilities of £2,913,699 (2024:£2,836,960). This negative balance is expected as there is a delay in earning the income in respect of cash already received for the Scheme for Registration. As the number of trainees joining the Scheme increases, especially towards the end of the financial year (as the trainees join after graduation in the Summer), then current net liabilities are expected. As the trainees move through the Scheme, the College recognises the income earned. There are very few trainees who do not complete the Scheme.

The current net liabilities risk is further mitigated by the College's investments which could be liquidated, at 10 working days' notice if additional cash were to be required. The College also has a secured overdraft, which was not used during the year.

Principal risks and uncertainties

At the strategic level, trustees continually review the major risks to which the College is exposed, and systems have been established to manage and mitigate these risks. In 2024 there was a full review of the College's risk position, led by the Audit Committee. The previous full review was in 2021. The Committee discussed the College Strategic Risk Register, format and contents, and the process by which risk is managed at the operational level via specific project or programme level risk registers. Additionally all Board papers include a risks section setting out the risks and mitigations associated with the recommendation(s) in the paper. The risk appreciations in the papers are based on the individual operational risk registers held for each project.

The Audit Committee concluded that the Registers were complete as presented and all the risks identified were appropriately understood and mitigated. This has subsequently been considered and agreed by trustees. The next full review will be in the Summer of 2026.

The major strategic risks facing the College are: number and composition of membership, lack of diversity of income, regulatory compliance, loss of reputation through clinical errors and not seizing opportunities when they present themselves because of an overly strong risk averse culture.

Project and programme risks are discussed regularly by the Senior Leadership Team.

Reserves policy and going concern

Prior to 2023–24, unrestricted reserves declined as trustees utilised reserves to maintain the College's capability during the pandemic, invest in the new CRM, develop software to support the new Clinical Learning in Practice activity, and refurbish the building which the College owns.

The surplus in 2023–24 reversed the reduction in unrestricted reserves, in line with trustee instruction to have a balanced operating outturn in 2024–25. The 2024–25 year reverted to an operating deficit balanced by a gain on investments, resulting in a very small overall deficit. So the effect on reserves was immaterial.

The Docet restricted reserves were fully used in 2024–2025 in meeting its 2024–25 activities.

The Trustees reviewed their reserves policy in 2023–2024 and amended it from maintaining reserves equal to 5 months of operating costs to a policy of having free and tangible designated reserves in a range, between £4.3m to £6.0m. This range is based on having sufficient liquid reserves that would allow the College to mitigate or overcome financial shocks or take advantage of opportunities.

As at 30th September 2025 the reserves policy showed reserves of £m

Free:	2.66
Designated (excluding intangibles):	<u>3.09</u>
	<u>5.75</u>

£5.75m complies with the reserves policy.

The College's cash flow projections show that the College has sufficient resources to enable it to deliver its business plans and to continue as a going concern.

The trustees have instructed management that the College should increase its free reserves. This will be achieved by delivering operating surpluses from the 2027–2028 financial year. The College is on track to meet the trustee instruction.

Given the current level of free and tangible designated reserves, the expected reduction in deficits and the cash flow projection, the Trustees are satisfied that the level of reserves is sufficient to meet any financial uncertainties that the College is likely to encounter.

Fundraising

The College only periodically fundraises, through its members to fund Research.

Small sums may also be received from third parties or the public to support the College's museum.

The College of Optometrists

Trustees' annual report

For the year ended 30 September 2025

The College did not use professional fundraisers nor commercial participators in 2024–25. Given this limited involvement in any fundraising, the College is not signed up to any particular fundraising regulation but would look to such codes for guidance on its activities. The College has had no complaints about its fundraising activity. No hard sell techniques are used and requests are only made to members, so the College believe that the risk to vulnerable people should be very low from any of their activities.

In 2025–26 the College recruited a Sponsorship and Fundraising Manager. Initially this member of staff is concentrating on raising sponsorship for the College's events and accessing grants to support the College's research activity. However it is intended that the post will move into general fundraising and consequently the College will register with the Fundraising Regulator as and when appropriate.

Plans for the future

The College instituted a new five-year strategic plan in October 2025, which sets out its vision "to eliminate preventable sight loss". The strategy is based on 4 strategic pillars:

- Optometrists are inspired, enabled and equipped to deliver high-quality services
- Optometry is recognised in all healthcare pathways, trusted and valued by all
- Patients get the eye care they need, when they need it, where they need it
- The public are aware of the benefit of maintaining good eye health

With four Foundations:

- our **members**
- our **values**
- our **people**
- our **resources**

The strategic plan informs a rolling three-year business plan, from which the annual budgets are developed, with the work to deliver the Plan being organised in cross-departmental workstreams, each led by a director.

The College has transitioned to a new accounting system – Sage Intacct – which enables budgeting by both departments and workstreams.

Structure, governance and management

The organisation was founded on 1 March 1980 as The British College of Ophthalmic Opticians. The title was changed in 1987 to The British College of Optometrists. On 18 September 1995 the organisation was granted a Royal Charter of Incorporation under the new title of The College of Optometrists.

The College of Optometrists

Trustees' annual report

For the year ended 30 September 2025

The College is governed by its Charter and Byelaws. The Trustees are responsible for the management of the College which is exercised through the Chief Executive. The Council is responsible for the strategic direction of the College. The Council consists of a maximum of forty persons from the following: up to 35 members elected to represent nine regions in England, along with Northern Ireland, Scotland and Wales, four who are members of the Lay Advisory Panel, and one person nominated from the Optometry Schools Council.

In September 2017 the Board of Trustees agreed to abide by the Charity Governance Code and regularly adopts any necessary changes to meet the code.

The Board of Trustees has the legal and fiduciary responsibilities for the College and is comprised of up to 14 members including the President, Vice President, Treasurer, Immediate Past President, seven Council members elected by the Council, including one Council member who is a member of the Lay Advisory Panel and up to three persons co-opted as Trustees subject to the approval of the Council. The Chair of the Board is appointed and serves for an initial term of 3 years (renewable for a further 3 years). Under the Charter, the Chief Executive has a right to attend all meetings of the Trustees but shall not be a Trustee. Currently there is one co-opted Trustee.

The Chief Executive is supported in the management of the College by six executive directors heading departmental activity under Finance, IT and Facilities, Human Resources, Membership Marketing and Communications, Policy and Strategy, Education, and Knowledge and Research.

All trustees give their time voluntarily and receive no benefits from the charity whilst acting as a trustee. Any expenses reclaimed from or paid by the charity are set out in note 8 to the accounts. The trustees are allowed by the College's Charter and Byelaws to receive remuneration for certain services. Details of such remuneration is also set out in note 8 to the accounts.

Appointment of trustees

The College's Council annually elects members to vacancies on the Board of Trustees.

Trustee induction and training

All new Trustees receive an induction from the Chief Executive and the Chair of the Board. Trustees hold an annual away day, either physically or virtually and two seminar sessions each year to increase their understanding of the issues affecting the College and develop plans for the future, including the strengthening of governance.

Trustees who served during the year and up to the date of this report are shown on page 1.

Related parties and relationships with other organisations

The Benevolent Fund of the College of Optometrists and the Association of Optometrists is a related party as the College appoints five out of the ten trustees.

The College of Optometrists

Trustees' annual report

For the year ended 30 September 2025

After a review of the Benevolent Fund's financial position, it was decided that a donation of £10,000 to the Fund would be accrued for in these accounts (2024:£ nil).

The College continued to reimburse expenses for the College nominated trustees, as well as providing, on a pro bono basis, meeting space, bookkeeping services, management accounts and draft statutory accounts. The College is also active in promoting the Fund

One of the trustees of the European Academy of Optometry and Optics is nominated by the College. The current nominee is not a trustee of the College.

Remuneration policy for key management personnel

In determining levels of remuneration, the College has to balance a number of factors to ensure that it is able to recruit and retain employees to deliver its services effectively. Our principles are to pay our staff a fair salary that is competitive within the market, proportionate to each role, and responsible in line with our charitable objectives. The College is committed to ensuring that its salaries remain competitive in the employment market, through conducting an annual pay review, paying individuals in line with the normal sector practice and standards, and benchmarking salaries against other employers. The College applies the same benchmarking principles in respect of the Chief Executive and Directors' level of pay as that applied to all other employees of the College.

Investment Policy and Performance

The Trustees of the College have a legal duty to ensure that the College's funds are managed prudently and have adopted a medium risk investment strategy with a balance in the investment portfolio between gilts or fixed interest securities and equities, and a balance between UK and overseas investments. The investment portfolio is benchmarked against an appropriate composite index that is reviewed regularly. The Trustees continue to retain investments in Common Investment Funds, managed by Sarasin.

The value of the College's investments at the end of September 2025 was higher than at September 2024, this was in line with market movements. The College did not draw down any investments in 2024-25.

Statement of responsibilities of the trustees

Law applicable to charities in England and Wales requires the trustees to prepare financial statements for each financial year which give a true and fair view of the charity's financial activities during the period and of its financial position at the end of the period. In preparing financial statements giving a true and fair view, the trustees should follow best practice and:

- Select suitable accounting policies and then apply them consistently
- Observe the methods and principles in the Charities SORP
- Make judgements and estimates that are reasonable and prudent
- State whether applicable UK Accounting Standards and statements of recommended practice have been followed, subject to any material departures disclosed and explained in the financial statements
- Prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charity will continue in operation.

The trustees are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the charity and enable them to ensure that the financial statements comply with the Charities Act 2011. They are also responsible for safeguarding the assets of the charity and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The trustees are responsible for the maintenance and integrity of the corporate and financial information included on the charity's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Auditor

Sayer Vincent LLP was re-appointed as the charity's auditor during the year and has expressed its willingness to continue in that capacity.

The trustees' annual report has been approved by the Board of Trustees on 7th May 2026 and signed on their behalf by

Professor Leon Davies
Chair

Independent auditor's report

To the trustees of

The College of Optometrists

Opinion

We have audited the financial statements of The College of Optometrists (the 'charity') for the year ended 30 September 2025 which comprise the statement of financial activities, balance sheet, statement of cash flows and notes to the financial statements, including significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including FRS 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland* (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the financial statements:

- Give a true and fair view of the state of the charity's affairs as at 30 September 2025 and of its incoming resources and application of resources, for the year then ended
- Have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice
- Have been prepared in accordance with the requirements of the Charities Act 2011

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the charity in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the trustees' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on The College of Optometrists ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the trustees with respect to going concern are described in the relevant sections of this report.

Independent auditor's report

To the trustees of

The College of Optometrists

Other Information

The other information comprises the information included in the trustees' annual report, other than the financial statements and our auditor's report thereon. The trustees are responsible for the other information contained within the annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon. Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters in relation to which the Charities (Accounts and Reports) Regulations 2008 requires us to report to you if, in our opinion:

- The information given in the trustees' annual report is inconsistent in any material respect with the financial statements;
- Sufficient accounting records have not been kept; or
- The financial statements are not in agreement with the accounting records and returns; or
- We have not received all the information and explanations we require for our audit.

Responsibilities of trustees

As explained more fully in the statement of trustees' responsibilities set out in the trustees' annual report, the trustees are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the trustees determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the trustees are responsible for assessing the charity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the trustees either intend to liquidate the charity or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

We have been appointed as auditor under section 144 of the Charities Act 2011 and report in accordance with regulations made under section 154 of that Act.

Independent auditor's report

To the trustees of

The College of Optometrists

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud are set out below.

Capability of the audit in detecting irregularities

In identifying and assessing risks of material misstatement in respect of irregularities, including fraud and non-compliance with laws and regulations, our procedures included the following:

- We enquired of management and the audit committee, which included obtaining and reviewing supporting documentation, concerning the charity's policies and procedures relating to:
 - Identifying, evaluating, and complying with laws and regulations and whether they were aware of any instances of non-compliance;
 - Detecting and responding to the risks of fraud and whether they have knowledge of any actual, suspected, or alleged fraud;
 - The internal controls established to mitigate risks related to fraud or non-compliance with laws and regulations.
- We inspected the minutes of meetings of those charged with governance.
- We obtained an understanding of the legal and regulatory framework that the charity operates in, focusing on those laws and regulations that had a material effect on the financial statements or that had a fundamental effect on the operations of the charity from our professional and sector experience.
- We communicated applicable laws and regulations throughout the audit team and remained alert to any indications of non-compliance throughout the audit.
- We reviewed any reports made to regulators.
- We reviewed the financial statement disclosures and tested these to supporting documentation to assess compliance with applicable laws and regulations.
- We performed analytical procedures to identify any unusual or unexpected relationships that may indicate risks of material misstatement due to fraud.
- In addressing the risk of fraud through management override of controls, we tested the appropriateness of journal entries and other adjustments, assessed whether the judgements made in making accounting estimates are indicative of a potential bias and tested significant transactions that are unusual or those outside the normal course of business.

Independent auditor's report

To the trustees of

The College of Optometrists

Because of the inherent limitations of an audit, there is a risk that we will not detect all irregularities, including those leading to a material misstatement in the financial statements or non-compliance with regulation. This risk increases the more that compliance with a law or regulation is removed from the events and transactions reflected in the financial statements, as we will be less likely to become aware of instances of non-compliance. The risk is also greater regarding irregularities occurring due to fraud rather than error, as fraud involves intentional concealment, forgery, collusion, omission or misrepresentation.

A further description of our responsibilities is available on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the charity's trustees as a body, in accordance with section 144 of the Charities Act 2011 and regulations made under section 154 of that Act. Our audit work has been undertaken so that we might state to the charity's trustees those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the charity and the charity's trustees as a body, for our audit work, for this report, or for the opinions we have formed.

The College of Optometrists

Notes to the financial statements

For the year ended 30 September 2025

1 Accounting policies

a) Statutory Information

The College of Optometrists is a registered charity, incorporated by Royal Charter, with the Charity Commission in England and Wales. The registered office and principal place of business is 42 Craven Street, London, WC2N 5NG.

b) Basis of preparation

The financial statements have been prepared in accordance with Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) – (Charities SORP FRS 102), The Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) and Charities Act 2011.

The financial statements have been prepared to give a 'true and fair' view and have departed from the Charities (Accounts and Reports) Regulations 2008 only to the extent required to provide a 'true and fair view'. This departure has involved following Accounting and Reporting by Charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) rather than the Accounting and Reporting by Charities: Statement of Recommended Practice effective from 1 April 2005 which has since been withdrawn.

Assets and liabilities are initially recognised at historical cost or transaction value unless otherwise stated in the relevant accounting policy or note.

In applying the financial reporting framework, the trustees have made a number of subjective judgements, for example in respect of significant accounting estimates. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The nature of the estimation means the actual outcomes could differ from those estimates. Any significant estimates and judgements affecting these financial statements are detailed within the relevant accounting policy below.

These financial statements include as a restricted fund the results of the linked trust "the Research Fund of the College of Optometrists" (Charity number 1060431-1).

c) Public benefit entity

The College meets the definition of a public benefit entity under FRS 102.

d) Going Concern

The Trustees consider that there are no material uncertainties about the College's ability to continue as a going concern.

The Trustees do not consider that there are any sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next reporting period.

The College of Optometrists

Notes to the financial statements

For the year ended 30 September 2025

1 Accounting policies (continued)

There are net current liabilities of £2,736,313 as at the balance sheet date (2024: £2,654,641 net current liabilities). This is due to increasing numbers of trainees on the scheme for registration, which increases the amount of cash received in advance of income recognition. At the balance sheet date the College had £5,352,949 of Investments (2023: £5,072,449), which are convertible into cash at 10 working days notice.

e) Income

Income is recognised when the College has entitlement to the funds, any performance conditions attached to the income have been met, it is probable that the income will be received and that the amount can be measured reliably.

Income from government and other grants, whether 'capital' grants or 'revenue' grants, is recognised when the College has entitlement to the funds, any performance conditions attached to the grants have been met, it is probable that the income will be received and the amount can be measured reliably and is not deferred.

Income received in advance of the provision of a specified service is deferred until the criteria for income recognition are met. This includes unrestricted membership and fee income received in advance where it relates to services provided in a future accounting period. The College allocates a share of the Scheme for Registration fee to each of the stages of the scheme and recognises income based on the stages completed at the end of the year by each registrant.

f) Fund Accounting

Restricted funds are to be used for specified purposes as laid down by the donor. Expenditure which meets these criteria is charged to the fund, together with a fair allocation of management and support costs if appropriate.

Unrestricted funds are donations and other incoming resources received or generated for the charitable purposes of the College.

Designated funds are unrestricted funds earmarked by the Trustees for particular purposes.

g) Expenditure and irrecoverable VAT

Expenditure is recognised once there is a legal or constructive obligation to make a payment to a third party and the amount of the obligation can be measured reliably. Total expenditure includes VAT which cannot be recovered.

h) Grants payable

The College pays out grants in furtherance of its charitable objects. A number of grants are made which may be payable over a number of years. The commitment to pay is recognised in full once the performance criteria are likely to be met.

The College of Optometrists

Notes to the financial statements

For the year ended 30 September 2025

1 Accounting policies (continued)

i) Allocation of support and governance costs

Resources expended are allocated to the particular activity where the cost relates directly to that activity. However, the cost of overall direction and administration of each activity, comprising the salary and overhead costs of the central functions, is apportioned on the basis of a percentage of total Direct costs including staff costs attributable to each activity.

Governance costs are the costs associated with the governance arrangements of the College. These costs are associated with constitutional and statutory requirements and include any costs associated with the strategic management of the College's activities. These costs are now allocated to activities on the same basis as shown above for support costs.

j) Tangible fixed assets

Items of equipment are capitalised where the purchase price exceeds £500. Depreciation costs are allocated to activities on the basis of the use of the related assets in those activities. Assets are reviewed for impairment if circumstances indicate their carrying value may exceed their net realisable value and value in use.

Depreciation is provided at rates calculated to write down the cost of each asset to its estimated residual value over its expected useful life. The depreciation rates are as follows:

Freehold land	not depreciated
Freehold buildings	not depreciated after 30 September 2011
Building improvements	over 10 years straight line
Equipment and furniture	over 10 years straight line
Computers	over 3 years straight line

The College holds a collection of library books and museum exhibits that were transferred from the British Optical Association Foundation, and includes antique books, paintings and prints. These are irreplaceable originals which are deemed not to decrease in value. Accordingly these items have not been depreciated in the financial statements, since any depreciation will not be material. The value included in the accounts is reviewed annually for indications of reduction.

k) Intangible fixed assets

Intangible fixed assets include costs of the membership database and website. Costs over £1,000 are capitalised.

Amortisation is provided at rates calculated to write down the cost of each asset to its estimated residual value over its expected useful life. The amortisation rates are as follows:

Website	3-5 years straight line
CRM system	10 years
CLiP system	10 years

The College of Optometrists

Notes to the financial statements

For the year ended 30 September 2025

1 Accounting policies (continued)

l) Listed investments

Investments are a form of basic financial instrument and are initially recognised at their transaction value and subsequently measured at their fair value as at the balance sheet date using the closing quoted market price. Any change in fair value will be recognised in the SOFA. Investment gains and losses, whether realised or unrealised, are combined and shown in the heading "Net gains/(losses) on investments" in the SOFA. The College does not acquire put options, derivatives or other complex financial instruments.

m) Debtors

Trade and other debtors are recognised at the settlement amount due after any trade discount offered. Prepayments are valued at the amount prepaid net of any trade discounts due.

n) Cash at bank and in hand

Cash at bank and cash in hand includes cash and short term highly liquid investments with a short maturity of three months or less from the date of acquisition or opening of the deposit or similar account.

o) Creditors and provisions

Creditors and provisions are recognised where the charity has a present obligation resulting from a past event that will probably result in the transfer of funds to a third party and the amount due to settle the obligation can be measured or estimated reliably. Creditors and provisions are normally recognised at their settlement amount after allowing for any trade discounts due.

p) Pensions

The College operates a defined contribution pension scheme. The assets of the scheme are held separately from those of the College in an independently administered fund. The pension cost charge represents contributions payable under the scheme by the College to the fund. The College has no liability under the scheme other than for the payment of those contributions.

8 Analysis of staff costs, trustee remuneration and expenses, and the cost of key management personnel

Staff costs were as follows:

	2025 £	2024 £
Salaries and wages	3,352,884	3,170,443
Redundancy and Termination Costs	–	4,781
Social security costs	400,960	355,361
Pension contributions	312,348	306,953
Private health and sickness insurance	54,631	46,607
Staff costs	<u>4,120,824</u>	<u>3,884,145</u>
Temporary Staff	<u>13,832</u>	<u>16,618</u>
Staff Costs and Temporary Staff	<u><u>4,134,656</u></u>	<u><u>3,900,763</u></u>

The following number of employees received employee salaries and benefits (excluding employer's national insurance and pension costs) during the year between:

	2025 No.	2024 No.
£60,001 – £70,000	4	4
£70,001 – £80,000	4	4
£80,001 – £90,000	3	1
£90,001 – £100,000	2	3
£100,001 – £110,000	1	–
£120,001 – £130,000	–	–
£130,001 – £140,000	–	–
£140,001 – £150,000	<u>1</u>	<u>1</u>

The total employee benefits (including employer's national insurance contributions and pension contributions) of the key management personnel were £846,902 (2024: £793,326).

4 Trustees (2024:8 Trustees) received remuneration in the form of payment of fees. This remuneration is for acting as examiners, lecturers, editors, facilitators and assessors checking the standards of optometric practice and is in accordance with the legal authority of the College's Charter and Bye-Laws.

None of the trustees are remunerated for their role as a trustee.

The library books were transferred from the British Optical Association Foundation to the College as at 31 December 1993. They are stated at the librarian's valuation dated 4 March 1982, plus subsequent additions at cost. The Museum Exhibits were also transferred from the British Optical Association Foundation to the College as at 31 December 1993. They include museum exhibits, antique books, paintings and prints, and are stated at a professional valuation dated 23 March 1982, plus subsequent additions at cost.

The Freehold land value at acquisition was £861,712 and is included in Freehold property. A third-party valuation of this land and property was obtained and reviewed by the trustees in 2023, and they remain satisfied that there is no indication of impairment and that the value at which the property is held in the accounts is exceeded by its market value.

All the above assets are used for charitable purposes.

The College of Optometrists

Notes to the financial statements

For the year ended 30 September 2025

18 Movements in funds (Continued)

Purposes of restricted funds

College Research Fund	This is a separate linked charity within the College which exists to develop researchers and finance research in accordance with the aims and objects of the Royal Charter of the College and the funds trust deed.
DOCET	The Directorate for Optometric Continuing Education and Training (DOCET), provides free CPD courses for all optometrists. The services are delivered by the College under a contract with NHS England, under Section 98 of the Care Act 2014. There are proportional financial contributions from three of the Health Departments of the United Kingdom. NHS Scotland decided to withdraw from DOCET.
NIHR	Funding received from NIHR for research projects has now been fully spent.

Purposes of designated funds

Fixed assets fund	This represents the net book value of fixed assets held by the College. Depreciation and amortisation is charged to the fund annually, and transfers in represent additions during the year.
Research fund	This represents the value of grants the College has committed to paying and matches the value of the grants payable creditor. The research fund was established to raise awareness of research within the optometric community and to support research in the community, by funding research projects. Grants awarded in the year are charged against this fund and the reduction in the fund represents grant payments made. Transfers to this are reviewed by Trustees on an annual basis.

19 Related Party

The Benevolent Fund of the College of Optometrists and the Association of Optometrists is a related party as the College appoints five out of the ten trustees. After a review of the Benevolent Fund's financial position, it was decided that a donation of £10,000 would be accrued for in these accounts. (2024:£ nil)

The College continued to reimburse expenses for the College nominated trustees, as well as providing, on a pro bono basis, meeting space, bookkeeping services, management accounts and draft statutory accounts. The College is also active in promoting the Fund.
