

## Clinical Learning in Practice

### Drug Management Template

THE COLLEGE OF  
OPTOMETRISTS

Complete all sections and upload as an attachment to logbook entry entitled "Drug Management" by the specified deadline.

#### 1. Drug Labels

Click in the boxes below to add images of drug labels, from current stock in your practice, into the boxes below, one for each drug type. Ensure that all essential information is clearly visible in the images, together with a recognised form of photographic identification.

Type of Drug	Image of label
Cycloplegic	
Mydriatic	
Local Anaesthetic	

## 2. Practice policies and drug control processes (where available)

- a) Click in the boxes below to add images of disposal equipment in your practice, into the boxes below, one for each. Ensure this is presented clearly, together with a recognised form of photographic identification in each image.

**Used fluoret disposal**

**Used minim disposal**

- b) Upload relevant practice policies and processes to the same log entry as the image template (Maximum of five total files).

## 3. Training and certificates (where available)

Upload relevant certificates and other evidence of training to the same log entry as the image template (Maximum of five total files).
