How to access the College online learning platform

1. Login to the College website (https://www.college-optometrists.org/account/signin) using your **university email** ID.

2. If you are logging in for the first time or have forgotten your password, click **Forgotten password** option to reset your password. Follow the instructions for subsequent steps, and you should receive the password reset email notification within a few minutes. Check your Spam or Junk folders in case you cannot find the notification email under your inbox.

3. After successfully logging in, click the top menu **My College**, then scroll down to find **Online learning** as shown below.

4. On the following page, click the orange button (as shown below) to access the online learning platform.

5. You will land on the homepage or dashboard for the online learning platform or LMS.

6. On this homepage, click on the course category – HES for Pre-reg

7. On the next page, the HES module available for access will be visible (HES experience: Paediatric clinic).

8. Click Enrol to start the course/module.

9. After completing the training sections, and after submitting the Feedback, you can download the completion certificate.
