

CLiP 2R logbook checklist

For entries which need to be flagged for the Assessor to review at an assessment visit (e.g. when selecting a patient type, linking to a learning outcome or attaching records or other documents), the field **Include in assessment?** on the logbook entry must be changed to **Yes**. Then the Supervisor will need to **confirm** and **approve** that entry.

For all other logbook entries, it is not necessary to change **Include in assessment?** and the Supervisor just needs to **confirm** the entries.

Task	Logbook record	Link to learning outcome?	Attachment?	Can entries be combined?	Items per task	Supervisor action	Logbook ID
1	One logbook entry with Interaction (low vision advice). In Interaction > Visual needs one of the following is selected: • Low vision – simple aids, or • Low vision – complex aids Upload attachment: anonymised in-practice patient record. Patient must meet the specified LV criteria.*	n/a	Anonymised in-practice patient record	No	2	Confirm and approve

2	One logbook entry with Interaction (patient with communication / comprehension challenges). In Interaction > Conditions, one of the following is selected: • Communications challenges - Cultural barriers, or • Communications challenges - Language barriers, or • Communications challenges - Needs help to communicate, or • Communications challenges - Hard of hearing, or • Comprehension challenges - Neurodiversity (LV), or • Comprehension challenges - Dementia, or • Comprehension challenges - Learning difficulties Upload attachment: anonymised in-practice patient record.	n/a	Anonymised in-practice patient record	Yes. There must be at least two logbook entries with a patient under 7 and 2 entries with a disability for Task 2	6	Confirm and approve	
2	One logbook entry with Interaction (patient with a disability impacting mobility). In Interaction > Conditions, the following is selected: • Physical challenges – physical disabilities Upload attachment: anonymised in-practice patient record.	n/a	Anonymised in-practice patient record	Yes. There must be at least two logbook entries with a patient under 7 and 2 entries with a disability for Task 2	6	Confirm and approve	

Task	Logbook record	Link to learning outcome?	Attachment?	Can entries be combined?	Items per task	Supervisor action	Logbook ID
2	One logbook entry with Reflection (experience of paediatrics and vulnerable patients and learning from the online course). In Logbook entry > Assessment tasks the following is selected: • CLiP 2 (Remote Visit) 2 Paediatrics and vulnerable patients Upload attachment: -Certificate of completion of the College online paediatric course. -Anonymised in-practice patient record of patient under 2 years old (only if available – this is not a strict requirement).	n/a	Certificate	No	6	Confirm and approve	
3	One logbook entry with Interaction (non-tolerance to new Rx due to dispensing issues). In Interaction > Conditions, the following is selected: • Non-tolerance Upload attachment: anonymised in-practice patient record.	n/a	Anonymised in-practice patient record	No	3	Confirm and approve	

Task	Logbook record	Link to learning outcome?	Attachment?	Can entries be combined?	Items per task	Supervisor action	Logbook ID
3	One logbook entry with Interaction (non-tolerance to new Rx due to either [i] incorrect Rx issued to suit px needs or [ii] other reasons). In Interaction > Conditions, the following is selected: • Non-tolerance Upload attachment: anonymised in-practice patient record.	n/a	Anonymised in-practice patient record	No	3	Confirm and approve	
3	One logbook entry with Interaction (symptomatic CL complications that require management). In Interaction > Conditions the following is selected: • Non-tolerance Upload attachment: anonymised in-practice patient record.	n/a	Anonymised in-practice patient record	No	3	Confirm and approve	
4	One logbook entry with Interaction (use of drugs). In Interaction > Tasks undertaken, the following is selected: • Drugs - Mydriatics Explain why the drug was used in the Interaction field 'Consultation notes'. Upload attachment: anonymised in-practice patient record.	n/a	Anonymised in-practice patient record	No	3	Confirm and approve	

Task	Logbook record	Link to learning outcome?	Attachment?	Can entries be combined?	Items per task	Supervisor action	Logbook ID
4	One logbook entry with Interaction (use of drugs). In Interaction > Tasks undertaken, the following is selected: • Drugs - Cycloplegia Explain why the drug was used in the Interaction field 'Consultation notes'. Upload attachment: anonymised in-practice patient record.	n/a	Anonymised in-practice patient record	No	3	Confirm and approve	
4	One logbook entry with Interaction (use of drugs). In Interaction > Tasks undertaken, the following is selected: • Drugs - Anaesthetic Explain why the drug was used in the Interaction field 'Consultation notes'. Upload attachment: anonymised in-practice patient record.	n/a	Anonymised in-practice patient record	No	3	Confirm and approve
