

Stage Two

Overarching case scenario 51

Contact lens aftercare.

25 year old financial advisor. Hobbies football, computer games. Drives. Non smoker Last eye examination and aftercare 6/12 ago, changed from monthly to daily disposable lenses then.

Worn soft contact lenses for 5 years, lenses comfortable, no problems with insertion or removal. Wears lenses all 14-16 hours 6 days per week; however vision has never been as good with the daily lenses as previous monthly lenses or spectacles.

No redness or discomfort, lenses comfortable at end of day, no ocular history, general health good, no medications.

Compliance good – washes hands before handling lenses, never reuses lenses.

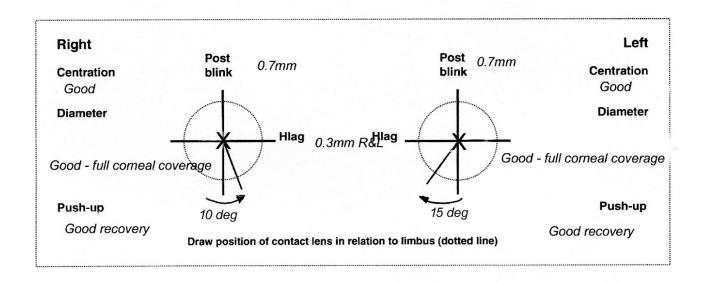

Spectacle prescription:	RE -2.00/-1.75x180 6/5 N5	
	LE -1.75/-2.00x180 6/5 N5	
Keratometry (B&L keratometer):	RE 7.55 along 90, 7.95 along 180
